## Building Homes-Building Futures

UnBQ's long-term objective is to:

- ➔ Create a sustainable on-site timber home construction industry;
- ➔ Foster business partnerships with our graduates and businesses in region;
- ➔ Address the community and college housing deficit and its attendant problems (over-crowded living conditions, parenting difficulties, poor school performance among youth and children);
- ➔ Address chronic underemployment; and
- ➔ Create healthy family environments across the lifespan by resolving a human being's most basic need—**safe and affordable housing**.

## Timber Shell Homes

- ☪ We will erect on your foundation at site.
- ☪ Warm, cozy natural interior look.
- ☪ No off-gassing of construction materials.
- ☪ Using primarily renewable and local resources.
- ☪ Floor plan is your design.
